## Analysis of Wholesale Funds June 2023

25 September 2023

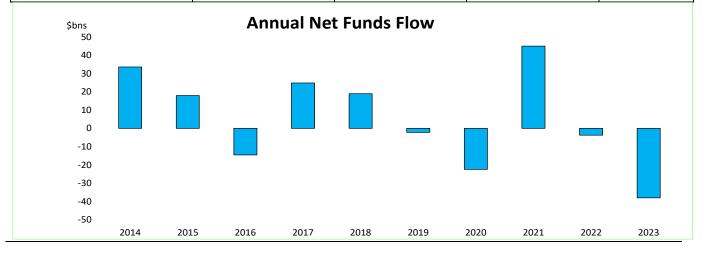

# \$232.8bn Jump in Reported Wholesale Funds during June 2023 Quarter

Wholesale Funds jumped 18.6% in the June quarter to total \$1,481.8bn; this was largely due to First Sentier including \$222.7bn of previously unreported funds under management without any history for this business so far. Over the past year reported Wholesale Funds increased by 22.3% (excluding First Sentier this drops to a more modest 3.9%). Investment markets subsequently rose further but have recently fallen back once again as central banks continue to try to control inflation by normalising interest rates after years of failed so called modern monetary theory ultra-low rates. Other managers seeing significant increases in Wholesale business included Perpetual (222.8%), due to its Pendal acquisition, Challenger (37.8%), Macquarie (13.7%), State Street (12.7%), Victorian Funds (10.4%) and Vanguard (8.3%).

Reported Gross Inflows for the whole of the 2022/23 financial year were down more than a third or 36.4% to total \$255.8bn after declining 4.3% during the latest quarter. State Street (-34.0%), Vanguard (-35.3%), Insignia (-24.5%), BlackRock (-34.1%) Macquarie (-48.3%), MFS (-56.2%) and Russell (-38.2%) all recorded sharply lower annual Inflows while by contrast those reported by Challenger (25.3%) and Perpetual (74.4%, now including Pendal) both jumped.

Data is collected from companies in the managed funds market covering funds under management, gross inflows and outflows, unit prices and investment return rates. Gross Inflows represents an indication of new business sales. This data is thoroughly checked and queries are raised with the providers if any of the data is significantly different from trends or compared to other companies. Where FUM or Flow data is unavailable directly, figures may be used from publicly available sources such as Annual Reports or estimated based on market behaviour from similar investments in compatible markets. This estimation procedure, coupled with our rigorous direct data collection, enables us to prepare high quality, reasonable and comprehensive data for every Manager.
