Analysis of Retail Funds at Dec-20 – Administrator View

\$59.2bn Jump in Retail Managed Funds reported during December 2020 Quarter

While Retail Managed Funds rose 6.5% in the December quarter to \$976.2bn over the whole of 2020 they finished flat, down 0.2%. After slumping dramatically earlier in the year due to a general panic triggered by the start of the corona virus pandemic, global stock markets have subsequently recovered most or all of the ground lost and indeed in the US they are once again in record territory. IOOF's Retail Funds almost doubled in the first quarter of 2020 due to its acquisition of ANZ Wealth business, now rebadged OnePath. Meanwhile HUB24 (38.8%) and netwealth (35.0%) also both reported some significant growth rates however by contrast AMP (-9.4%) saw its business fall.

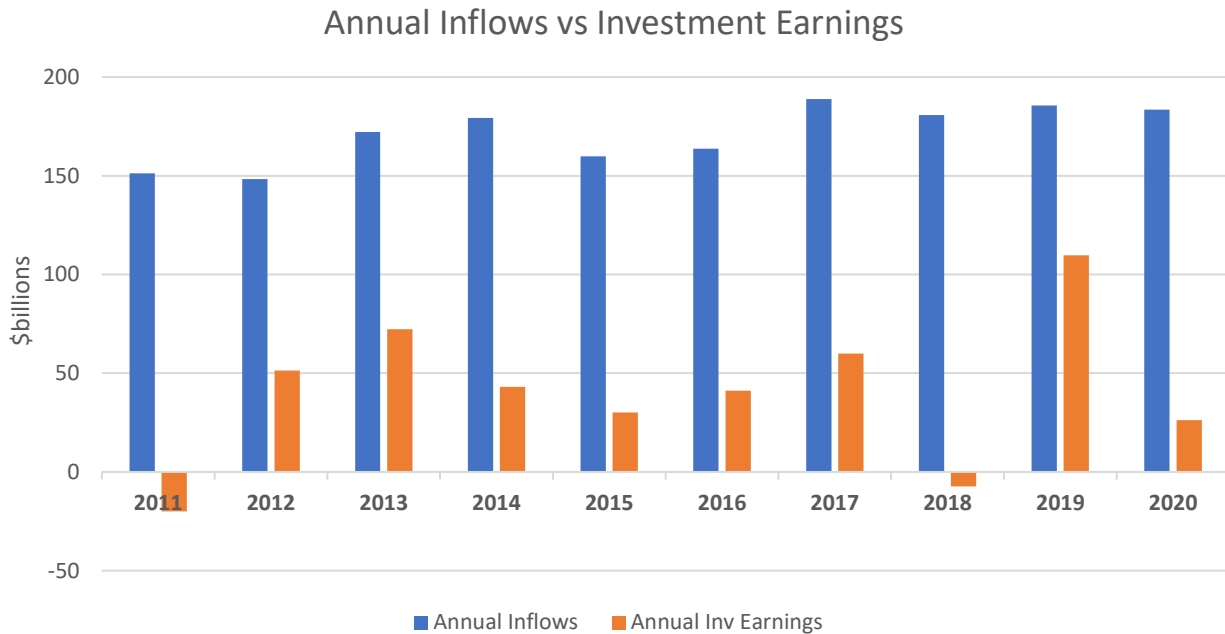

Gross Inflows for 2020 totalled \$183.4bn which was down only slightly by 1.2% on 2019. December quarter overall Inflows were little changed from those recorded in September, just marginally lower by 0.7%.

Funds Under Management								
\$millions	Dec-20		Sep-20		Dec-19		Growth Rates

Disclaimer and Conditions of Use

This report and material have been prepared by Plan For Life, an ISS Market Intelligence brand (Asset International Australia Pty Ltd, ACN 147 440 140, ABN 42 147 440 140) (“Vendor”). Vendor has taken all reasonable care in preparing this Report and takes no responsibility for inadvertent errors and omissions, or those due to information received from other parties. If any errors or omissions are found, these should be brought to our attention so that appropriate corrective action can be taken. Vendor takes no responsibility for the subsequent use of the material provided.

Vendor, its employees and associated persons make no recommendations, representations, warranties nor provide opinions, implied or otherwise about the suitability in general terms of a particular asset type or insurance and its suitability for any particular individual or organization. This report is provided as an information service and is not suitable to be acted upon as life insurance advice without additional input from an Authorised Representative of an Australian Financial Services Licence Holder. In particular, Vendor advises that in preparing this report it did not take into account the individual goals and objectives, anticipated resources, current situation, attitudes or other circumstances of any particular person. In this regard any such user must consult with an appropriate Authorised Representative of an Australian Financial Services Licence Holder. The information provided on financial products does not constitute financial product advice and users of this information should obtain independent advice before making any financial decision.

Vendor is an Australian Financial Services Licence Holder; none of its employees and associated persons are currently Authorised Representatives of a Licence Holder. Vendor is a research company. Actuarial services are provided by and under the independent control of Somari Systems Pty Ltd ABN 97 006 233 923 (Simon Solomon & Associates). No part of this publication may be reproduced or distributed in any form without express prior written consent from Vendor. Acknowledgement is given to APRA for cross-reference to items appearing in its Annual and Half-annual Reports on Life Companies.

Data Collection and Estimation Techniques Data is collected from companies in the managed funds market covering funds under management, gross inflows, gross outflows, net inflows unit prices and investment return rates. Gross Inflows represents an indication of new business sales. Data is thoroughly checked and queries are raised with data providers if data is significantly different from trends or compared to other companies. Where inflow or outflow data is unavailable, we make estimates based on market behaviour from similar investments in compatible markets. When companies provide actual inflow and outflow data these replace estimates. This estimation procedure, coupled with our rigorous direct data collection, enables us to prepare high quality, reasonable and comprehensive data for every Manager.
