Analysis Of Retail Managed Funds as at March 2017 - Administrator View

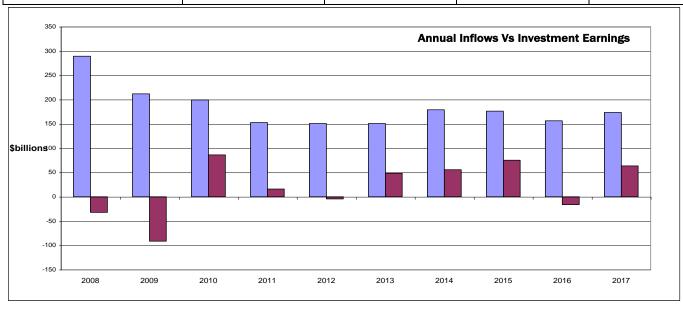

Release Date: 14 June 2017

\$17.2bn Increase in Retail Managed Funds during March Quarter 2017

Overall Retail Managed Funds ended the year to March up 10.1% to total \$828.3bn. During the March quarter they increased 2.1% with most this rise due to positive performances on underlying investment markets. Over the past year all of the leading companies reported increases in their funds under management led by netwealth, Macquarie, Mercer, AMP, Commonwealth / Colonial and BT.

Gross Inflows fell 8.7% to \$39.3bn during the March 2017 quarter however year on year they were still up by a substantial 11.0%. Inflows into all of the Retail sub-markets except Cash Trusts were higher with those into the main Superannuation, Retirement Income and Unit Trusts & Investment Funds markets up 11.0%, 12.0% and 19.6% respectively. Insurance Bond Inflows jumped 31.8% but that was off a relatively very low base while those into Cash Trusts fell 18.3% year on year as this sub-market continues to contract.

Analysis Of Retail Managed Funds as at March 2017 - Admin View

Release Date: 14 June 2017

About the Media Release

The Media Release is provided by Strategic Insight, Actuaries and Researchers. Strategic Insight are specialists in providing accurate statistical information and analyses covering the financial services, funds management and life insurance markets. This Media Release is designed to give managing directors, marketing managers and other senior managers a timely and comprehensive overview of the performance of individual companies and the overall market.

Administrator View

This Administrator View Media Release considers market share from the perspective of the company which administers the product and also includes badged / white labeled products distributed/marketed by completely separate entities. Administrator View funds and flows will be higher than the corresponding marketed/distributed figures for those organizations where badging is part of their activities (please refer to the Marketer View Media Release for further details of marketed funds and flows).

Data Collection and Estimation Techniques

Data is collected from companies in the managed funds market covering funds under management, gross inflows, gross outflows, net inflows unit prices and investment return rates. Gross Inflows represents an indication of new business sales. Data is thoroughly checked and queries are raised with data providers if data is significantly different from trends or compared to other companies. Where inflow or outflow data is unavailable, we make estimates based on market behaviour from similar investments in compatible markets. When companies provide actual inflow and outflow data these replace estimates. This estimation procedure, coupled with our rigorous direct data collection, enables us to prepare high quality, reasonable and comprehensive data for every Manager.
